Overview

The Newbury Radio Rally has been taking place every year since 1987 - **yes that's 32 years !!!**.

It is organised and run by the Newbury And District Amateur Radio Society (NADARS) and attracts visitors from all over the country. This highly popular event provides the ideal venue for anyone interested in radio, electronics or computing. Themed around a 'boot sale' it offers the opportunity to buy and sell everything from the smallest components used for making equipment or projects, through to complete communication systems. Whether you want the very latest full featured transceiver from the world's biggest manufacturers, or simply something second-hand at incredibly attractive prices, there are more than 100 stalls waiting to help you.

But buying or selling is not the only thing on offer, as there are other attractions too !

Each year NADARS provides it's '**Demonstration Marquee**' where you will **see live amateur radio stations in contact with amateurs all over the world** using **Voice, Morse Code and Data communications**.

Also, there have been a number of national societies who have previously displayed (hopefully returning this year) including:

- ✓ British Amateur Television Club (BATC)
- ✓ Castles and Stately Homes on the Air
- ✓ Radio Officers Association
- ✓ Reading Hackspace
- ✓ Restored Police command truck and support vehicle
- ✓ Royal Signals Amateur Radio Society
- ✓ Royal Air Force Amateur Radio Society
- ✓ Royal Naval Amateur Radio Society
- ✓ UK Six Metre Group
- ✓ Group For Earth Observation
- ✓ Worked All Britain (WAB) Awards Group,

And other organisations and clubs all displaying their special interests

Catering - with all the things to see and do, you sometimes also need to eat and drink!! Our professional caterers provide hot foot, tea, coffee, soft drinks, etc.

The Newbury Radio Rally really is '**the one not to be missed**' and ensures a great day out **for everyone**.

Directions:

Highways England have informed us that repairs to the bridge at junction 13 of the M4 will take place over 9 weekends during the summer. This includes the weekend of the Newbury Radio Rally on Sunday 23rd June.

During these weekends, traffic will not be able to use any part of the M4 / A34 roundabout. You will need to travel to Newbury, to the roundabout on the A4 junction with A339 and B4009.

Then turn onto the B4009 heading north through Shaw until you reach Hermitage, where you turn left. You are then on Priors Court Road which goes past the showground. The rally is the last showground entrance on the left.

➔ For more details of the recommended diversions and handy printout maps you can download for free, please visit www.nadars.org.uk/rally.asp and then click on the 'Location' icon.

About N.A.D.A.R.S.

The **Newbury and District Amateur Radio Society (NADARS)** has been in existence for over 60 years and has about 80 members. The call sign of the Society is **G5XV**.

We hold meetings on the fourth Wednesday of the month, starting at 19:30hrs, in the meeting room of The Travellers Friend, Crookham Common, Thatcham, Berkshire, RG19 8EA.

At these meetings there is usually a talk relating to radio, electronics or computing. We also hold many other social and radio related events, such as contests and special event stations etc. In addition, we run training courses to enable members of the public become radio amateurs. The first is a two-day "Foundation Licence" course which trains you in the basics of amateur radio and how to operate an amateur radio station safely. At the end of the course participants take a basic examination to obtain their transmitting licence.

We have a 99.8% success rate with this course & exam!

The 'infamous' **G4TPH Mag Loop Antenna** (above) (As reviewed in RadCom and other places) Tom G4TPH is a NADARS Club Member. See him and his demonstration at the **Newbury Radio Rally**.

There are many facets to amateur radio; a popular one at NADARS is **contesting**, and the club has an excellent track record of results. Events vary, but the basic principle is to make as many radio contacts as possible in a specified period of time. A very popular series of contests runs regularly each month where members operate from home and individual scores are added to make a club total. Other contests involve setting up a portable station 'in the field' for a weekend with temporary masts and aerials, operating from tents or caravans.

If you would like more information, or find out about the **Newbury and District Amateur Radio Society** (who organises the Newbury Radio Rally) then please do not hesitate to contact us.
